# Emapta Talent Marketplace: A Smarter, Faster Way to Hire

We're happy to announce a major upgrade to the Emapta Talent Marketplace. We've redesigned the entire experience to help you find, evaluate, and hire the best talent with greater speed, precision, and confidence. This is more than just a facelift; it's a strategic enhancement designed to streamline your entire hiring workflow.

## Key Upgrades at a Glance

We've rebuilt the platform around four core principles: smarter search, deeper insights, streamlined workflow, and an intuitive interface.

### Find Top Talent, Faster & Smarter

Discovering the right candidates is now more intuitive than ever. We've supercharged our search capabilities to bring the best matches to the forefront instantly.

- ✓ **More Powerful Search**  
Our new search bar understands natural language. Simply type what you're looking for (e.g., "Accountant with QuickBooks experience") and let our smarter search do the work.
- ✓ **Revisit Past Searches Instantly**  
A new "Because you searched for..." section remembers your recent queries, allowing you to pick up right where you left off.
- ✓ **Discover Trending Roles**  
See what roles are currently in high demand with the new "Trending Searches" feature, giving you insight into the market.
- ✓ **Pinpoint Your Search**  
Browse talent with greater precision using our expanded job categories and new sub-categories (e.g., Finance -> Accounts Payable).

### Deeper Insights for Better Decisions

Making the right hiring decision requires a complete picture. We've revamped our talent profiles and filtering to give you all the information you need at a glance.

- ✓ **Comprehensive Talent Profiles**  
Get a 360-degree view of candidates with our redesigned profiles, now organized into three clear tabs: Summary, Details, and Interview Q&A.
- ✓ **Richer Candidate Information**  
Key features include an introductory video, career highlights, detailed skills, a full breakdown of the monthly cost & Interview Q&As from recruiter interviews.
- ✓ **Granular Filtering**  
Narrow down your search with an extensive new set of filters.
- ✓ **Improved Side-by-Side Comparison**  
Our enhanced comparison view presents more detailed candidate information side-by-side, making evaluation easier and more effective.

### Streamlined Hiring from End-to-End

We've introduced a powerful, visual pipeline to help you manage the entire hiring process seamlessly within the marketplace.

- ✓ **Visualize Your Entire Hiring Funnel**  
Introducing a redesigned Job Pipeline, a newly enhanced view that tracks every candidate's progress from "Shortlisted" to "Hired" in a clear, stage-based view.
- ✓ **At-a-Glance Job Progress**  
The updated "Jobs List" now includes a Pipeline Snapshot, showing how many candidates are in each stage for every role you're hiring for.
- ✓ **Integrated Actions**  
Request assessments, initiate Final Staffing Proposal (FSP) requests, and approve offers directly from the pipeline, keeping everything in one place.
- ✓ **Simplified Job Creation**  
Our redesigned, multi-step job creation form makes it easier to provide all the necessary details to kick off a successful talent search.

### A Modern, Intuitive Interface

Beyond new features, the entire platform has been updated with a clean, modern, and user-friendly design to make your experience more efficient and enjoyable. From searching to sharing profiles via email, every interaction has been refined.
